CU umbragrau

CV vidalschwarz

TEXTIL NATUR

Only possible for beds ASB***P*, ASB***H*!

Construction / loading capacities:

Beds:	coreboard in genuine wood veneer (visible sides brushed old oak), end-grain edging;			
Bed substructure:	for double beds (from 160 cm internal width) with solid wood support rail down the centre (adjustable in height to 4 levels)			
Carcase and shelves:	coreboard with genuine wood veneer			
Fronts and top panel:	coreboard veneered in genuine wood (old oak brushed)			
Front glass panels:	satin colour glass or bronze Parsol mirror			
Drawers:	dovetailed solid wooden drawers (oak) with concealed, easy-action fully extending pull-out			
Front profiles / handles:	Aluminum stainless steel effect anodized (EL02)			

Loading capacities:	wooden shelves:	max. 15 kg	drawers up to 80 cm wide:	max. 10 kg
			drawers over 80 cm wide:	max. 25 kg

Lighting (optional)

All lighting systems are permanently installed and wired into the furniture by VOGLAUER. Each illuminated element has its own control gear or transformer and a main power cable (approx. 2.5 m) with EURO plug.

Switching:	bed reading lights with touch sensor
	Bed head lighting and bedside lighting with switch
	Carcase interior lighting and vanity unit interior lighting with motion detector

Power/consumption:	Bed reading light: 0.9 watts/pc.
	Indirect lighting headboard and bedside tables: COB LED strips with continuous phosphor layer: 5 watts/metre
	Carcase interior lighting: 20.9 watts

Energy consumption labelling: The following applies to all VOGLAUER furniture with lighting: „This product contains a light source of **energy efficiency class F**“. The light sources and the associated control gear can only be replaced by qualified personnel.

Wood-based materials - indoor climate:

Despite meticulous craftsmanship, wood is a living raw material that reacts to changes in humidity and adapts to the prevailing climate. This may unavoidably result in colour and texture variations, minor cracks, slight warping or open knots. An ideal indoor climate for furniture is between approx. 18-23 °C as well as 45-55 % humidity. To reduce warping or cracks to a minimum, solid wooden furniture should be exposed to the smallest possible fluctuations in temperature or humidity.

Oiled wooden surfaces:

Our hard oil/wax combinations based on vegetable oil meet the highest environmental standards and are on a par with organic products. The oiled surface is breathable and improves the indoor climate. The surface is antistatic, i.e. dust and dirt-repellent.

Care of oiled surface: to maintain the value of oiled furniture from VOGLAUER, re-oiling is recommended every 6-8 months. Apply a thin coat of VOGLAUER care oil („care oil“ - see accessories) with a soft and non-lining cloth, rubbing evenly in the direction of the fibres. Afterwards, polish with a dry cotton cloth. The surface takes on a silky gloss and feels velvety soft.

Furniture cover materials:

- **Loden** fabric made of 100 % pure new wool
- **Vintage** fabric made of 100 % microfibre (PES)
- Sturdy soft **nappa cowhide** with scar pattern and distinctive mill grain.
- **Curl** fabric made of easy-care Q2-Hitex® yarns (74% PAN, 26 % PES)
- **Chalet** fabric made of easy-care Q2-Hitex® yarns (58% PAN, 42 % PES)
- **Textil natur**-fabric of Trevira CS (100% PES)

The production or processing of fabrics and leather involves many work steps which is why slight colour variations in the end product cannot be avoided. It is particularly important to bear this in mind when comparing samples and actual furniture. Puckering is a natural process and therefore no reflection of any reduction in quality. It results from using or stretching of cover materials.

Important planning information:

- To ensure proper fulfilment of the contract, all structural conditions, obstructions, dimensions and loads must be identified when ascertaining what is required.
- Identify the preliminary electrical work that is required for wiring and for connecting appliances (freely suspended lighting systems require surface-mounted or concealed cable ducting solutions). Each illuminated element has a separate mains power cable (approx. 2.5 m) with EURO plug. The mains power connection for lighting (socket, cable outlet) can be provided in the entire rear panel area of cabinet furniture (rear-panel clearance approx. 23 mm).
- Door hinges are nickel-plated and adjustable in 3 directions. However, for exact door fit, it is essential for furniture to be standing on a level and even floor; unevenness can be corrected with adjustable furniture feet. Some carcass units with hinged doors can only be fitted with wall clearance on the hinge side as shown in the sketch, as the doors protrude when opened due to the design (indicated for the respective type).
- All dimensions stated in the product guide are theoretical approximate dimensions and may diverge from actual dimensions, especially as a result of cumulative tolerances. Handle or other insignificant component projections are not included in the overall dimensions.

Installing furniture

On account of the large doors and fully extending drawers, free-standing elements must also be fixed to the wall to prevent them from tipping forward. VOGLAUER supplies the appropriate mounting accessories for solid brickwork or masonry. For stud walls, specialist fitters must obtain suitable wall plugs screws themselves. VOGLAUER assumes no liability for installation!

All furniture is assembled and customised by VOGLAUER at the factory. Bulky furniture can be dismantled for assembly purposes or is delivered in disassembled form. VOGLAUER supplies assembly drawings for furniture that is not assembled.

VOGLAUER furniture quality certificate:

When buying VOGLAUER furniture, the VOGLAUER Furniture Quality Pass is handed over (online download: www.voglauder.com). A comprehensive documentation specifying the 5-year warranty and containing many important information such as instructions for use and care.
