

VOGLAUER

U montanara

LIST OF TYPES

(valid from 2020.01.01)

Please always indicate the following specifications:

MODEL: MO | Vmontanara

WOOD:

EG | Wild oak oiled

GLASS/FRONT montegrey:

M-PM | Glass panel

M-PH | Wood panel

GLASS/FRONT optiwhite:

O-PO | Glass panel

O-PH | Wood panel

LIGHTING:

Lighting wireless switch

Lighting with switch

COVER MATERIALS:

(please specify code and colour designation)

LEATHER MONTAN:

LODEN:

VINTAGE:

CURL:

CB | black

CHALET:

VOGLAUER - Zertifiziert & Ausgezeichnet

Voglauser Gschwandtner & Zwilling GmbH 5441 Abtenau - Austria FN 39238d Landesgericht Salzburg

Due to this register's publication all previous stated prices cease to be in force. Deviation in form, equipment, measure, colour as well as technical modifications and misprints reserved!

Construction / loading capacities:

Carcase:	Carcase parts coreboard with genuine wood veneer		
Fronts:	solid wood (cleft-wood design) or satin-finish coloured glass		
Cover panels:	coreboard in genuine wood veneer (14 mm) or satin-finish coloured glass (8 mm)		
Shelves:	wooden compartments behind wooden doors, burnished glass compartments (Parsol bronze) behind transparent front glass panels		
Transparent front glass panels:	in toughened safety glass - Parsol bronze		
Drawers:	dovetailed solid wooden drawers (oak) with concealed, easy-action fully extending pull-out		
Tabletops:	coreboard veneered in genuine wood with solid wooden edgeband - hard-wearing wooden surface finish in blend of lacquer and wax with natural feel		
Door and drawer opening:	PUSH-ON automatic opening		

Loading capacities:	glass shelves 6 mm:	max. 5 kg	drawers up to 80 cm wide:	max. 10 kg
	Glass shelves 8 mm:	max. 10 kg	drawers over 80 cm wide:	max. 25 kg
	wooden shelves:	max. 15 kg	chairs:	max. 110 kg

Lighting (optional)

All lighting systems are permanently installed and wired into the furniture by VOGLAUER. Each illuminated element has its own control gear or transformer and a main power cable (approx. 2.5 m) with EURO plug.

ON/OFF either by:

- internal mini rocker switch
- wireless switch and dimmer (each furniture element is supplied with its own wireless transmitter handset - (several lights can be programmed to operate from one handset at any later date)

Power/consumption: LED spot: 2 watts/pc, COB LED strip with continuous phosphor layer: 5 watts/pc, LED glass channel (Q-Line): 7 watts/metre

Energy consumption labelling: The following applies to all VOGLAUER furniture with lighting: „This product contains a light source of **energy efficiency class F**“. The light sources and the associated control gear can only be replaced by qualified personnel.

Wood-based materials - indoor climate:

Despite meticulous craftsmanship, wood is a living raw material that reacts to changes in humidity and adapts to the prevailing climate. This may unavoidably result in colour and texture variations, minor cracks, slight warping or open knots. An ideal indoor climate for furniture is between approx. 18-23 °C as well as 45-55 % humidity. To reduce warping or cracks to a minimum, solid wooden furniture should be exposed to the smallest possible fluctuations in temperature or humidity.

Oiled wooden surfaces:

Our hard oil/wax combinations based on vegetable oil meet the highest environmental standards and are on a par with organic products. The oiled surface is breathable and improves the indoor climate. The surface is antistatic, i.e. dust and dirt-repellent.

Care of oiled surface: to maintain the value of oiled furniture from VOGLAUER, re-oiling is recommended every 6-8 months. Apply a thin coat of VOGLAUER care oil („care oil“ - see accessories) with a soft and non-lining cloth, rubbing evenly in the direction of the fibres. Afterwards, polish with a dry cotton cloth. The surface takes on a silky gloss and feels velvety soft.

Furniture cover materials:

- **Loden** fabric made of 100 % pure new wool
- **Vintage** fabric made of 100 % microfibre (PES)
- Sturdy soft **nappa cowhide** with scar pattern and distinctive mill grain.
- **Curl** fabric made of easy-care Q2-Hitex® yarns (74% PAN, 26 % PES)
- **Chalet** fabric made of easy-care Q2-Hitex® yarns (58% PAN, 42 % PES)

The production or processing of fabrics and leather involves many work steps which is why slight colour variations in the end product cannot be avoided. It is particularly important to bear this in mind when comparing samples and actual furniture. Puckering is a natural process and therefore no reflection of any reduction in quality. It results from using or stretching of cover materials.

Important planning information:

- To ensure proper fulfilment of the contract, all structural conditions, obstructions, dimensions and loads must be identified when ascertaining what is required.
- Identify the preliminary electrical work that is required for wiring and for connecting appliances (freely suspended lighting systems require surface-mounted or concealed cable ducting solutions). Each illuminated element has a separate mains power cable (approx. 2.5 m) with EURO plug. The mains power connection for lighting (socket, cable outlet) can be provided in the entire rear panel area of cabinet furniture (rear-panel clearance approx. 23 mm).
- Door hinges are nickel-plated and adjustable in 3 directions. However, for exact door fit, it is essential for furniture to be standing on a level and even floor; unevenness can be corrected with the furniture wedges provided.
- All units with hinged doors can only be installed with a clearance from the wall (as shown in the drawing) on the hinge side because as a result of the way in which they are designed, the doors protrude to the side on opening them.
- All dimensions stated in the product guide are theoretical approximate dimensions and may diverge from actual dimensions, especially as a result of cumulative tolerances. Handle or other insignificant component projections are not included in the overall dimensions.

Installing furniture

On account of the large doors and fully extending drawers, free-standing elements must also be fixed to the wall to prevent them from tipping forward. VOGLAUER supplies the appropriate mounting accessories for solid brickwork or masonry. For stud walls, specialist fitters must obtain suitable wall plugs screws themselves. VOGLAUER assumes no liability for installation!

All furniture is assembled and customised by VOGLAUER at the factory. Bulky furniture can be dismantled for assembly purposes or is delivered in disassembled form. VOGLAUER supplies assembly drawings for furniture that is not assembled.

VOGLAUER furniture quality certificate:

When buying VOGLAUER furniture, the VOGLAUER Furniture Quality Pass is handed over (online download: www.voglauder.com). A comprehensive documentation specifying the 5-year warranty and containing many important information such as instructions for use and care.
