

Pamper Hotel Bismarck, Bad Hofgastein

Alpine elegance and Austrian comfort have always been distinguishing features of the 4-star pamper and family hotel consisting of three houses: the Bismarck main house, the Bismarck manor house and the Bismarck hotel. With a deliberately selected 132 beds, the hotel offers plenty of space for guests to unfold and relax sufficiently.

Proven quality and decades of international experience were the decisive factors in Voglauer hotel concept being commissioned with the renovation of 24 rooms. As a full-service provider, the Wendler family was guaranteed a contact person from the start of the planning phase right through to the project delivery.

The high-quality design and planning was worked out in advance in the Voglauer hotel concept showroom together with the Wendler family.

Over a period of just 5 weeks, a total of 24 rooms in the main house were completely renovated and furnished in an elegant Austrian style with wooden floors. Fine fabrics, curtains, carpets and valuable woodwork also give the rooms a special, individual character and round off the living area.

The Bismarck Hotel captivates with its special charm. The ambitious Wendler host family and the senior director Mr Schmidt place great importance on providing personal and individual service for their guests. Further highlights of the Bismarck include the hotel's own thermal swimming pools, panorama sun terraces, idyllic gardens, etc.
