

Renaissance Aix-en-Provence Hotel

The first 5-star hotel of the brand Renaissance Hotel in Aix-en-Provence had its opening in January 2014. It is located within the new district “Forum Culturel” and is only 5 minutes from Mirabeau Court. The hotel is an extraordinary and artistic place to stay.

The renowned family company was brought on board for the new construction of 133 rooms after visiting the showroom of Voglauer hotel concept in the picturesque Salzburg state. The planning was provided by the architectural practice “From here to there Studio” and “THED” in Paris.

The project was completed in several phases over a long period of time.

The perfect mix of contemporary design with the colours of Provence afford the hotel guests an inspiring atmosphere.

For the realisation of the room design, materials such as walnut, resin, stainless steel and warm tones in orange and beige were used.

The hotel offers further highlights with its Spa Renaissance by Ymalia and with its spacious seminar room. Paintings from local artists are exhibited throughout the hotel in order to promote local art.
